Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's amendment filed, 9/17/04 has overcome the objections to the claims listed in the last office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "mask-scan strategy" in claims 1,5-6,8-9 is a relative term, which renders the claim indefinite. The term " mask-scan strategy " is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 2881

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-2,4,9 to the extent understood remain rejected under 35 U.S.C. 102(e) as being anticipated by Higashikawa [6,333,138]. The claims remain rejected as stated in the previous office action dated, 6/17/04.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3,5,6,8 to the extent understood remain rejected under 35 U.S.C. 103(a) as being unpatentable over Higashikawa [6,333,138]. The claims remain rejected as stated in the previous office action dated, 6/17/04.

Claims 1-2,4-9 to the extent understood remain rejected under 35 U.S.C. 103(a) as being unpatentable over Shimomura [JP 2001-217173]. The claims remain rejected as stated in the previous office action dated, 6/17/04.

Response to Arguments

Applicant's arguments filed 9/17/04 have been fully considered but they are not persuasive. With respect to the arguments concerning Higashikawa [6,333,138] not teaching nor disclosing a "mask-scan strategy", it is the examiner's view that Higashikawa [6,333,138] teaches the applicant's invention and claims. See rejection

above. In addition, the examiner would like to point out that "mask-scan strategy" is not defined anywhere in the specification and therefore would constitute new matter if the term "mask-scan strategy" defines something different than what was previously defined by the specification. If this is not the case, then the examiner is puzzled as to why the applicant attempted to change the terminology of the claims. An explanation would therefore be required as to applicant's reason for the change in terminology.

With respect to the applicant's arguments concerning the Shimomura [JP 2001-217173] reference not teaching to determine the amount of electron beams used for correcting, it is the examiner's view that Shimomura [JP 2001-217173] does teach this. The examiner would like to direct the applicant's attention to paragraphs [0015-0017, 0023-0024, 0047-0049, 0062, 0066-0069].

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2881

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Quash whose telephone number is (571)-272-2480. The examiner can normally be reached on Monday thru Friday 9 a.m. to 5 p.m..
